CAREER OBJECTIVE

Motivated and detail-oriented Computer Science and Engineering student with strong foundations in Web Development, Database Management, and Machine Learning. Passionate about leveraging full-stack development skills (PHP, MySQL, JavaScript) to build efficient, scalable web applications and contribute effectively to dynamic technology teams.

SKILLS

- **Programming & Web Languages:** C, PHP, JavaScript, HTML5, CSS3, SQL
- **API Development**
- **Database services**
- **Developer Tools & Version Control:** Git, GitHub, VS Code
- **Design & UI/UX Tools:** Figma, Canva
- **Productivity Tools:** Microsoft Excel
- **Leadership**

EDUCATION

Bachelor of Science (B.Sc.): Computer Science & Engineering (CSE)

BGC Trust University Bangladesh

Status: 7th Semester | CGPA: 3.57

2023 to 2027

Chittagong, Bangladesh

KEY PROJECTS

- **Admission Helper Platform for Bangladeshi Students**, Lead Developer
Technologies: HTML5, CSS3, JavaScript, PHP, MySQL. Engineered a responsive full-stack web application designed to consolidate admission criteria, exam rules, and deadlines across Bangladeshi universities into a single accessible portal. Designed relational database schemas using MySQL to store and manage multi-university information efficiently. Developed an intuitive UI in Figma to optimize cross-device user experience for mobile and desktop users. Reduced information lookup time for prospective students by centralizing diverse application policies into a unified system.
- **Cross-Dataset Generalization Analysis of ML Models**, Team Lead (Group CrossLearn)
Technologies: Python, Machine Learning Algorithms, Data Preprocessing. Led a university research project analyzing machine learning models to evaluate cross-dataset generalization for student performance prediction. Processed and structured disparate datasets to test model robustness and accuracy across different demographic and academic groups. Coordinated group tasks, code reviews, and project presentation delivery as the primary team leader.

TRAINING & CERTIFICATIONS

- **PHP Intern Developer Training Track** — Itransition (2026)

Focused on modern PHP practices, object-oriented programming, database management, and enterprise backend structures.

- **Frontier Tech Skills Course & Data Science Math Skills** — FutureNation / Coursera Scholarship

Covered foundational mathematics for data science, data analysis techniques, and emerging technology frameworks.

- **Networking Essentials** — Cisco Networking Academy (Enrolled 2026)

Gaining practical understanding of network architecture, protocols, security principles, and data routing.

LEADERSHIP & COMMUNITY INVOLVEMENT

- **Active Member** — BGC Geeks Technical Community

Participate in technical workshops, skill-building sessions, competitive programming practice, and peer developer discussions.

- **Team Leader** — Team Trash Talk (BGCTUB Central IT Fest 2025)

Led project formulation, solution design, and pitch presentation for the Idea Contest centered on Smart Waste Management.
